JUNHA JEONG

Full Stack Developer

@ jooncco.g@gmail.com   🔗 https://jooncco.me   📍 Seoul, Republic of Korea

SUMMARY

Highly skilled and adaptable Full Stack Developer with 4 years of experience in designing, developing, and maintaining modern web applications. Proficient in both frontend and backend technologies, with a strong focus on delivering robust and scalable solutions. Seeking to leverage expertise in developing cloud-native applications to contribute to innovative projects and drive continuous improvement in software development.

EXPERIENCE

Full Stack Developer   01/2019 - Now

LG CNS   Seoul, Republic of Korea

LG CNS is a Korean SI industry Leader & IT company.
- Designed & developed business critical applications ranging from small to big scales.

PROJECTS

Fast Download for TB scale files   01/2024 - 02/2024

Client: KRX

A front-end prototype app with multipart download functionality.
- Designed & implemented a multipart download module with Axios.
- Improved download speed for a 1.2TB file, reducing time by 40%.
- Designed & implemented a front-end app with Next.js & Tailwindcss.

Automated Notification System for T4K Truck Customers Feedback   12/2023 - 12/2023

Client: GS Global

An automatic anomaly detection system for T4K truck customers feedback, which scrapes feedbacks from Kakao Talk chat room, analyzes the sentiment, and sends an email to the responsible team.
- Overall system design.
- Implemented Scrapper: A Python app responsible for automated export of Kakaotalk chat contents.
- Implemented Uploader: A Spring Boot app parses chat text, and uploads those parsed text to S3 bucket.

IP TV Web Server App Mod   02/2023 - 11/2023

Client: LG Electronics

LGE SDP App Modernization project: next generation IP TV web servers.
- Implemented REST APIs for IP TVs: device authentication & initialization based on device meta data.
- Reduced execution time of a device initialization API by 50% with executor threads.
- Designed & implemented a batch micro service which periodically uploads log files to S3 bucket for monitoring.

EDUCATION

Computer Science B.S.   02/2019

Yonsei University   Seoul, Republic of Korea
